

On-site Fuel Deliveries to Exhibitors/Show Vendors By GROWMARK FS

GROWMARK FS (1006 First Ave., Manson, IA 50563) will supply all of the Exhibitors/Show Vendors power fuel needs inside the Progress City grid.

All exhibitors and vendors who require fuel delivered on-site for generators, motorized equipment, and refrigerated trailers are to work directly through GROWMARK FS to establish customer accounts, to schedule delivery of fuel and to pay for fuel received.

Fuel delivered to the show site for exhibitors/vendors will be charged at tank-wagon prices plus an on-site delivery fee of \$50.00.

- Customer accounts are to be set-up with GROWMARK FS at least 2 weeks in advance of when fuel will be needed.
- GROWMARK FS will run credit checks on each new account and will establish each customer's payment terms.
- Exhibitors/vendors are to furnish GROWMARK FS with a map of their location on the Farm Progress Show site that clearly shows the fuel tank(s) or staging area for vehicles, and the name and phone number of the on-site contact for fuel deliveries.
- Fuel will only be delivered to approved fuel storage tanks provided by the exhibitor/vendor or directly into generators or vehicles. If the location or type of fuel storage tank does not meet code, GROWMARK FS will not deliver fuel.
- Exhibitors/vendors are to contact GROWMARK FS 1 day in advance to schedule fuel deliveries on-site at the Farm Progress Show. For same-day fuel delivery requests, GROWMARK FS reserves the right to charge an additional fee for rush delivery.
- On show days, fuel deliveries to exhibitor locations inside the Progress City grid will only be made before the show opens or after the show closes.
- Exhibitor/vendor is to provide fuel delivery staff with clear access to fuel tank(s). If privacy fences or other items block access to the tank(s), it is the exhibitor/vendor's responsibility to provide access at the time the fuel delivery is made. If access is not provided, GROWMARK FS is not obligated to deliver fuel and will have the option of charging the exhibitor a service fee. It will be the responsibility of the exhibitor/vendor to contact GROWMARK FS to re-schedule the fuel delivery.
- If the exhibitor/vendor has multiple motorized vehicles, efforts should be made to have all vehicles in a single location when fueled.
- Bulk truck fueling operations will begin on the afternoon of August 25 and conclude at the end of the show on September 2. Hours of operation are 8:00 a.m. – 5:00 p.m.

GROWMARK FS will also provide a self-service fueling station for customers with credit approval. Please contact GROWMARK FS 5 days in advance of your arrival to the show for key fob instructions. The self-service station will be available beginning at 8:00 am on August 1 and will shut down on September 30 at 5:00 p.m.

There will be no cash transactions for fuel deliveries made to Farm Progress Show participants.
