Electricity at Farm Progress Show

Do you need electrical access in your exhibit?

Yes

No

No action required

Is your exhibit an indoor or outdoor exhibit?

Outdoor

Indoor

You must opt in for electrical service during the exhibit application process. You will be invoiced by Farm Progress for access to the electrical system. If you need to confirm whether you've opted in, please contact Renee Smith at renee.smith@farmprogress.com.

Can you power your exhibit with a 110V extension cord?

Electricity is included in your booth charges. Routing from a box in the back-drape line is your responsibility. A limited supply of extension cords is available at the show office.

Yes

Not sure

No

A limited supply of extension cords is available to check out at the show office. There should be an electrical box within 80 feet of one of your back corners.
